NEWGATE INSTRUMENTS ANNOUNCES MANAGEMENT APPOINTMENTS

East Granby, Conn., April 20, 2017 – Newgate Instruments LLC has announced the appointment of two employees to key management positions in the company effective April 1. The company designs and manufactures devices for remote pipeline monitoring in the energy industry.

Shawn Watson has been appointed General Manager/Global Sales Manager of Newgate Instruments. Watson has 24 years' experience in the oil & gas industry, including sales roles for both hardware and software products at companies including Servelec Technologies and CygNet Software. He is a U.S. Air Force veteran and is Executive Chair of the Appalachian Gas Measurement Short Course (AGMSC) Program Committee, and a member of International Society of Automation, Gulf Coast Gas Measurement Society, and American Petroleum Institute.

Paul Mayer, P.E. has been promoted to Vice President, Engineering at Newgate Instruments. He is responsible for product development engineering and manufacturing engineering at the company. Mayer joined Newgate Instruments in 2012 as a product manager after previous positions at Remote Automation Solutions. He holds a master's degree from the New York University Polytechnic School of Engineering and a bachelor's degree in Electrical Engineering from the University of Connecticut.

About Newgate Instruments
