NEWGATE INSTRUMENTS NAMES WILLIAM TOURILLOTTE OPERATIONS MANAGER

East Granby, Conn., March 12, 2018 – Newgate Instruments LLC, a wholly owned subsidiary of Joining Industries, has named William Tourillotte Operations Manager effective March 1, 2018. Tourillotte is responsible for overseeing and directing daily operations for the company, which designs and manufactures devices for remote pipeline monitoring in the energy industry. His responsibilities include facilitating manufacturing processes, leading team production meetings, and managing inspection of manufactured products.

Tourillotte joined Newgate Instruments in January 2016 as an Electrical Engineer and was promoted to Product Development Engineer in March 2017. He also completed several co-op assignments with Newgate Instruments and Joining Technologies during his college education. Tourillotte is a graduate of the Rochester Institute of Technology, where he earned a Bachelor of Science degree in Electrical Engineering.

About Newgate Instruments

Newgate Instruments LLC specializes in developing innovative technologies for the natural gas and oil industries. The East Granby, Connecticut-based company was launched by industry-leading engineers in 2012 to meet the unique needs of energy companies requiring low power technologies.
